To generate these counts yourself, select the Query Tool from the Action drop-down and paste the following query into the SQL Command Window, changing the dates near the end as appropriate, and click on the Run button:

select watAssessments.lastUpdateUser As Assessor, Count(*) AS Total from watAssessments left join rmIncidentWaterFacilities on watAssessments.rmIncidentWaterFacilityID = rmIncidentWaterFacilities.rmIncidentWaterFacilityID left join rmIncidents on rmIncidentWaterFacilities.rmIncidentID = rmIncidents.rmIncidentID where incidentName like '%Harvey%' and (watAssessments.lastUpdateUser like '%pjetrovic%' or watAssessments.lastUpdateUser like '%camacho%' or watAssessments.lastUpdateUser like '%omartinez%' or watAssessments.lastUpdateUser like '%okpala%' or watAssessments.lastUpdateUser like '%pham%' or watAssessments.lastUpdateUser like '%tingey%' or watAssessments.lastUpdateUser like '%nunez%' or watAssessments.lastUpdateUser like '%young%' or watAssessments.lastUpdateUser like '%ibarra%') and assessmentDate between '09/01/2017 00:00:00.000' and '09/02/2017 00:00:00.000' group by watAssessments.lastUpdateUser

Subject: M6H1 – Harvey Response: RM Report Request for Phone Ops

I would like a report or have someone show me how to create one out of RM that gives the assessment counts by date by person. I also need a report broken out by county of water systems that we have NOT been able to reach in the counties that have at least one assessment (usually status is UNKNOWN).

If there was a SQL user in the local RM database that had select only privs as well as "create views/synonyms" privs for the RM tables, we might be able to figure out how to query the data ourselves.

For the first report, assessors include:

Anisa Pjetrovic
Amy Camacho
Omar Martinez
Maria Okpala
Lisa Pham
Chris Tingey
Alex Nunez
Nichole Young
Juan Ibarra

Thanks
